Donations appreciated.
Proceeds benefit Monroe Technology Center's
Auto Collision Repair
& Graphic Communications Programs.

Notice to all registrants: Parking locations cannot be guaranteed for this show. In the past we have tried to accommodate first arrivals at the staging area for parking choices and it has not worked. We have spaces for 200 cars and that amount of cars will be parked BUT NOT IN ANY SPECIFIC OR REQUESTED LOCATIONS. We have less than 30 minutes to get all cars parked once the streets are blocked off. If you would like to park by a friend we suggest you line up with them in the staging area and follow each other into town when you are directed to do so by the NVRCC staff. We work closely with the Leesburg police department for a smooth operation of parking and we request your patience through this process.
